EDUCATION

MSc Psychology in Game Design & Digital Innovation

University of Surrey | 2025–Present
Predicted 1st Class Honours

BSc Psychology

University of Surrey | 2022–2025
2:1

SKILLS

Research Methods

Playtesting facilitation · Semi-structured interviews · Think-aloud protocols · Thematic analysis · Eye-tracking (VR) · Behavioural observation · Participant recruitment · Within/between-subjects design · Survey & experiment design · Ethics & consent management

Analysis

Jamovi (advanced) · SPSS · Qualitative coding · Affinity mapping · Mixed-methods design · Descriptive & inferential statistics

Technical

Unreal Engine (prototyping) · VR systems · Microsoft Office Suite

Professional

Stakeholder presentation · Research documentation · Participant facilitation · Event coordination

Tools & Platforms

Qualtrics · Google Forms · MS Teams · Zoom (remote session facilitation) · OBS Studio (session recording)

Game Research

Heuristic evaluation · Player psychology frameworks · Game feel & UX critique · Playtesting documentation · Engagement & retention analysis

PROFILE

Postgraduate researcher specialising in user research for games and interactive systems, with direct industry experience conducting end-to-end playtests for a live studio. Skilled in mixed-methods research — combining VR-based user studies, eye-tracking, semi-structured interviews, and thematic analysis — grounded in a specialist MSc in Psychology, Game Design and Digital Innovation. Translates behavioural insight into clear, actionable design recommendations for development teams.

WORK EXPERIENCE

GAME TESTER & USER RESEARCHER · Academic Research Placement

22cans — Masters of Albion

Jan 2026 – Apr 2026

- Managed the full user research lifecycle: ethics documentation, consent procedures, participant recruitment, and session facilitation for an officially released title.
- Conducted and transcribed semi-structured post-play interviews; applied thematic analysis to surface key usability pain points and engagement patterns.
- Compiled and presented a stakeholder-ready report to the studio, including prioritised design recommendations and identified weaknesses.

SENIOR STUDENT AMBASSADOR

MySurrey Hive — University of Surrey

Oct 2022 – Present

- Delivered structured presentations and campus tours to audiences of 100+ per event, adapting communication style across school groups, parents, and prospective students.
- Coordinated multi-team event logistics, maintaining smooth delivery and consistent visitor experience under time pressure.

LOGISTICS ASSISTANT

Tottenham Hotspur Stadium

Jul 2022 – Sep 2025

- Managed resource allocation and cross-team communication for live events exceeding 50,000 attendees across 3+ years of consistent operational delivery.
- Implemented and enforced safety protocols in high-pressure, time-critical environments, ensuring compliance across all event zones.
- Briefed and coordinated team members on shift procedures, maintaining consistent standards across varying event formats and crowd sizes.
- Monitored stock and equipment deployment across multiple areas, flagging and resolving shortfalls before and during live events.

SELECTED PROJECTS & AWARDS

MSc Dissertation — Trust in Autonomous Vehicles (VR) · University of Surrey, 2025–Present

Designing and conducting a VR study examining how driving style and explanatory behaviour affect user trust in autonomous systems — combining quantitative psychometrics and qualitative self-report analysis.

VR Cognitive Impairment Simulation · MSc Module Project

Prototyped an Unreal Engine VR environment simulating alcohol-like visual impairment to assess cognitive performance; delivered full findings presentation to academic audience.

Gamified DCD Research · BSc Research Project

Designed a gamified experiment measuring DCD's effect on educational engagement in children aged 9–11, using child-appropriate survey methodology and behavioural analysis.

Gen.G Practicum Scholarship

Competitive scholarship for gaming industry practicum abroad programme (Jun 2024)

PhD Research Proposal

Developed full doctoral proposal in games user research & player psychology (2026)

Limit Break Mentorship Programme

Selected applicant for games industry mentorship (2025/26)

Surrey Video Game Society

Active member · Game jam participant · AAA title design critiques
